THURSDAYS

TAKE THE STAGE

Students will learn to use their own unique qualities to become an actor! Through theater games, improvisation, and storytelling, young actors will build their skills and confidence as performers in preparation for a special showcase presentation, held on the last class day.

This program has been specially adapted for after-school programs from AFYP's expanded curriculum of classes and Summer Acting Camps and is a great fit for students with any level of experience. Come "Take the Stage!"

THURSDAYS

MINECRAFT PROGRAMMING

Minecraft Programming teaches students important problem-solving and design skills by using command block and Redstone to build spectacular projects with programming logic. This course is a great precursor to understand real circuitry, electronics and electrical theory. This course allows students to gain an understanding of how

computers are processing commands as they move on to other computer science studies, and take home their Redstone creations at the end of the course. Coding fundamentals are reinforced by designing and implementing large-scale Minecraft elevators, rollercoasters, and more!
